

Nuts | Year 7/8
Learning Experience 6
Worksheet 2

Sensory evaluation activity – Nuts

Descriptive testing

This is where you compare colour, shape, texture and flavour of the same type of product produced by two different producers – your group and another group’s product.

IMPORTANT: Tell the supervising teacher if you have any allergies.

1. Ensure you have rinsed your mouth before tasting.
2. Each person is to taste the healthy snack products.
3. Use the **Sensory Analysis Terminology sheet** (Worksheet 3) to access words to describe your food experience.
4. Collate a list of your responses in the table below.

	VISUAL APPEAL	TASTE	TEXTURE	AROMA
PRODUCT 1				
PRODUCT 2				

5. Decide which product you prefer – taste wise. Remember this may not be the best solution nutritionally!

6. Make suggestions for amendments to improve your products.

7. Justify your decision.
